

## 4. Quantity Surveying.

Course Code: ETC 04.1 (Old Syllabus)

(The final examinations were terminated in year 2008)

### 1st Year

| # | Module   | Design length (Hrs) | No: of Hours per week |
|---|--|---------------------|-----------------------|
| 1 | Construction Technology-I                                    | 60                  | 02                    |
| 2 | Principals of Quantity Surveying                             | 60                  | 02                    |
| 3 | Applied Instrumentation, Land Surveying & Leveling - Theory  | 60                  | 02                    |
| 4 | Applied Instrumentation, Land Surveying & Leveling Practical | 60                  | 02                    |
| 5 | Building Service-I   | 60                  | 02                    |
| 6 | Structures-I   | 60                  | 02                    |

### 2nd Year

| # | Module                             | Design length (Hrs) | No: of Hours per week |
|---|------------------------------------|---------------------|-----------------------|
| 1 | Construction Technology-II         | 60                  | 02                    |
| 2 | Quantity Surveying (Measurement)-I | 60                  | 02                    |
| 3 | Estimating & Costing-I             | 60                  | 02                    |
| 4 | Building Service-II                | 60                  | 02                    |
| 5 | Structures-II                      | 60                  | 02                    |

### 3rd Year

| # | Module  | Design length (Hrs) | No: of Hours per week |
|---|---|---------------------|-----------------------|
| 1 | Construction Technology-II                    | 60                  | 02                    |
| 2 | Quantity Surveying (Measurement)-II           | 60                  | 02                    |
| 3 | Estimating & Costing-II                       | 60                  | 02                    |
| 4 | Tender Procedures                             | 60                  | 02                    |
| 5 | Construction Industry & Construction Contract | 60                  | 02                    |
| 6 | Variation Accounts & Interim Valuation        | 60                  | 02                    |

#### Note:

Minimum requirement to qualify for the certificate, student must obtain passes in all six subjects listed for 3rd year in final examination.

Total lengths of 1020 hours were covered by this old syllabus.
